**STATEMENT OF INTERVIEW SUBSTANCE
UNDER 37 C.F.R. § 1.133(b)**

To the Commissioner:

This document is a Statement of Interview Substance for the telephonic interview conducted on February 24, 2009, with Examiner Anthony J. Daniels, Attorney Thomas F. Lebens, and Attorney May Lin DeHaan.

Claims 1 through 28 were discussed. Cited art that was discussed included Franken (US 7028323), Zilliacus (US 2004/0005900), Peliotis (US 2002/0065678), and Lautzenheiser (US 7054827).

The Applicant's representatives explained how the amendments to the claims submitted on January 29, 2009, are believed to distinguish over the cited art to date. Specifically

PATENT

U.S. Patent Application Serial No. 10/820,338

Title: Method and Apparatuses for Displaying and Rating Content

Applicant(s): Sean Christopher Endler

Document: Response to Office Action of October 29, 2008

Attorney Docket No. 81486.7114

"separating each at least one string of content into a plurality of segments having a corresponding plurality of original in-and-out points" was discussed; and the Examiner agreed that this feature was not taught by the cited art to date. The Examiner further agreed that the January 29, 2009, amendment to the claims seems to overcome the cited art to date, but stated that he would need to conduct a further search.

Respectfully submitted,

Dated: May 5, 2009

May Lin DeHaan
